

# Garmin Announces Virtual Expo Experience

## Customer Webinars Available March 30 – April 03

Are you missing the show season? We are too. In light of Aero Friedrichshafen 2020 being postponed, Garmin is pleased to announce a live customer webinar series based on our most popular topics that were on our original seminar agenda. While these are unprecedented times, and the show season has taken safeguards, we would like to continue to offer our customers opportunities to learn more about our great products and recent announcements, all from the comfort of your home. In addition to these webinars, Garmin is pleased to announce that special promotions will be offered to those that join in! Pass this information along to other customers and aircraft owners so they may benefit with this limited-time opportunity too.

Time (CEST)	Topic (Click to register)
